# About Us

## OVERVIEW

**Alliance for Safety and Justice (ASJ)** is a national advocacy organization that aims to replace ineffective criminal justice system policies with what works to keep people safe. We represent diverse crime survivors as well as people living with old records as key public safety stakeholders. ASJ brings our members together with state leaders and coalition partners to win reforms that stop cycles of crime, reduce costly incarceration, and make communities safer. We support a range of “shared safety” reforms, including crime prevention, community health, rehabilitation, economic mobility, and trauma recovery.
